

RISK MANAGEMENT PERSPECTIVES IN A DIGITAL ERA

A THREE DAY PROGRAMME FOR POLICY SPECIALISTS,
FINANCIAL INCLUSION REGULATORS AND
RISK MANAGEMENT OFFICIALS

17 SEPTEMBER - 19 SEPTEMBER 2024 | LONDON, UK

The Microfinance
Association

Digital is the new normal. It has already transformed industries such as media, transportation, and retail and is now sweeping through financial institutions. But when it comes to a financial institution's risk function, unique challenges and opportunities accompany digitization.

Global CEOs and CROs tend to be cautious when considering the very idea of a digital risk transformation, wondering just how far they can automate crucial processes and rely on automated decisions.

This three day programme will give you an insight and would help you to keep pace with change.

The programme provides a transformation road map and gives real practical examples of successful organisations in the financial sector.

Module 1	Changing trends in Digital Finance
Module 2	Emerging and evolving risks in Digital Finance
Module 3	Assessing Digital Finance Risks
Module 4	Regulators perspectives on Digital Finance
Module 3	Managing – Digital Risks
Module 4	Data Management/ Process automation/ Advanced Analytics
Module 5	Infrastructure/Interfaces/External Ecosystems
Module 6	Managing culture in organisations on digital risks
Module 7	Successful Transformation on digital finance
Module 8	Case Study
Module 9	Putting all together
